Experience

Innovation Engineer CIBC

North York, ON
Jan 2018 - Aug 2018

I worked with the Frontline Labs team. I was responsible for designing and developing web and mobile applications that would benefit CIBC employees.

Projects

Fire Training Simulator Academic

Jan 2019 - Dec 2019

Designed and developed augmented reality application that simulates real-life fire training scenarios.

piCamera Visualisation CIBC

May 2018 - Aug 2018

Designed and developed web tool that creates graph visualisations from Raspberry Pi camera captures.

Inventory & Documentation system CIBC

May 2018 - Aug 2018

Setup local Jira and Confluence instances for lab inventory and project documentation respectively.
